Troy D. Hightower formed TDH Associates International in 1986 after working 10 years for the airlines. TDH International LLC was formed after Mr. Hightower retired from Kern COG in 2015 as a Regional Transportation Planner. TDH has focused on transportation related and economic development projects. TDH recently expanded to EV Charging Stations for fleets. We have over 30 years of global experience providing innovative, timely, and competitive solutions in a professional manner with integrity.

What We Do

- ☐ Public, private, and non-profit project development, management, administrative, and technical support
- ☐ Land use, transportation, and GHG emissions modeling, GIS mapping and data analysis
- ☐ Collaborate with agencies, community-based organizations (CBO's), funding sources, and developers
- ☐ Facilitate multi-lingual community engagement to support projects in Disadvantaged Communities
- ☐ Development of EV charging stations and infrastructure for commercial and fleet operators
