TDH International LLC originally TDH Associates International was founded in 1986 by Troy D. Hightower Bakersfield, CA. Mr. Hightower retired from Kern Council of Governments as a Regional Transportation Planner in 2015. TDH has focused on economic and community development, and electric vehicle related projects. We have over 30 years of global experience providing innovative, timely, and competitive solutions in a professional manner with integrity for private, public, and non-profit projects.

What We Do

- Public sector and non-profit project development, management, administrative, and technical support
- Land use, electric mobility, and GHG emissions modeling, GIS mapping and data analysis
- Collaborate with agencies, community-based organizations (CBO's), funding sources, and developers
- Multi-lingual community engagement to support projects in Disadvantaged Communities
